Re: *ProMOS Technologies, Inc. v. Freescale Semiconductor, Inc.*,
C.A. No. 06-788-JJF (DM 4)

Dear Judge Poppiti:

During yesterday's conference call, you asked whether additional portions of the March 4, 5, and 6 deposition transcripts not yet submitted by the parties might be relevant to matters under consideration. The answer to that question is yes. The rough transcripts for those depositions, which are short, are attached hereto. In addition, we have attached the rough transcript of a more recent deposition conducted March 12, after our March 10 letter, which relates to products that incorporate the e600 core. Please note:
